SWAT ACADEMY

ABOUTUS

- SWAT Academy: A place where kids, coaches and parents come together for the love of the game and to be their best. SWAT is a special place, unlike any other in Oklahoma. A place that is full of inspired and passionate coaches, athletic trainers and staff that are genuinely committed to sharing their knowledge. We help Oklahoma kids get fit and prepare them to play recreational and competitive sports such as softball and baseball with year round training programs.
- SWAT is devoted to the development of athletes with the ultimate goal of helping each player reach their full potential not only in sports but in life. Our mission is to give players the most positive training environment and simply the best facility around which includes a 20,000 sq. ft. facility, 10 turfed cages, a fully dedicated performance training area and an astonishing 10,000 sq. ft. fully turfed stadium lit indoor field. SWAT is in its fifth year as a training facility. Our business has grown and evolved into an outstanding place for student athletes in our community.

SWAT's Training Facility is open 7 days a week!

Your business will be visible to potential local customers for
you nearly 365 days a year!

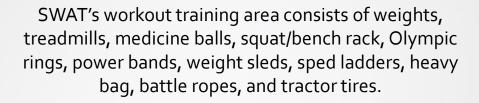

WHY ARE OUR SPONSORS SO IMPORTANT TO THIS PROGRAM?

SWAT currently is able to offer its services for a very affordable price <u>because</u> we have local businesses and individuals that support our operations with advertising in the facility and on our website. With your advertising help, parents of players who cannot afford to pay traditionally large Academy fees are able to give their son or daughter access to our outstanding training facility and coaching at very reasonable prices thanks to our advertisers! This is a win-win for everyone that participates in this program.

SWAT batting cages can be used for individual player training, team practices, corporate events, birthday parties, or just for fun.

In the world of elite fast pitch softball, a high tech "Virtual Reality" pitching simulator has now become accessible for competitive softball athletes in Oklahoma City.

Dimensions of the screen. 10 x 12 screen

How it Works

The ProBatter PX2 softball simulator is extremely realistic by recreating the experience of facing a live pitcher through an integration of the most recent computer and video technology with a precision ball delivery mechanism.

Newly developed software allows users to control every feature of the unit via a large touch screen that eliminates the need for adjustments of individual batters.

The PX2 can deliver an endless assortment of pitches at a professional level speed of 70mph, adjustable in 2mph increments, including fastballs, change-ups, droppers, risers, and screwballs.

✓ SWAT's state-of-the-art multipurpose field is a 10,000 square foot space that is ideal for training when the Oklahoma elements will not allow for outdoor workouts. The field is enclosed with high-quality netting which gives baseball and softball teams the ability to practice live batting and also includes a full-length batting cage. Being fully-turfed, the field is also great for soccer training, and it has also served as the host site for youth football practices, dodgeball tournaments, t-ball leagues, and community meetings.
