

# Learn to read music notes -- quickly and easily!

If you are an adult or a teenager learning the piano, then this could be the most important invitation you will ever receive.

Here's why:

Most people are really keen when they begin learning to play the piano or keyboard, but many soon give up **because they find reading music notes too difficult.**

They feel disappointed and frustrated. Why?:

- They cannot find the notes on the piano keyboard.
- They struggle to remember which note is which on the staff.
- They confuse the bass staff notes and the treble staff notes.
