

# Fibromyalgia Patients, Do You Feel Like a Medical Misfit?

Have you been to numerous doctors, tried dozens of drugs, supplements, and therapies for fibromyalgia, but still suffer?

**I Can Help.**

## Has your doctor told you, "You're Lazy, Crazy, or Just Depressed"?

Contrary to what some doctors may have told you, you're not crazy, lazy, or suffering from a Prozac deficiency. Sadly, most doctors don't know much, if anything, about fibromyalgia. What's even worse, many doctors secretly think those with these illnesses are crazy, lazy, or depressed. I know how frustrating it is to continue to look for answers from doctors who don't understand what you're going through.

These are the same doctors who tell you to get more sleep (right!), take it easy, get more rest, exercise, and eat better. They want to cover up the symptoms with prescription drugs such as Lyrica, Savella, and Cymbalta which have largely failed those with fibromyalgia. Or, they send you off to a psychiatrist for more antidepressant medications. Most doctors just don't get it. They don't want to see you, the fibromyalgia patient, in their appointment book! They consider fibromyalgia patients as a nuisance. Why? Because most doctors still don't believe fibromyalgia truly exists.

I've developed a program for correcting the cause of fibromyalgia. I've helped thousands of patients beat their fibromyalgia, not just cover up their symptoms. The majority of fibro patients haven't slept well in years and this is the main reason for their chronic fibromyalgia symptoms.

**What You Really Need Is 6-8 Hours of Deep, Refreshing Sleep Each Night! Without reestablishing consistent deep restorative sleep, you'll never feel good.** Reestablishing consistent deep restorative sleep is the key for reversing your chronic fibromyalgia symptoms.

**Your Stress Coping Savings Account**

I'm Dr. Rodger Murphree, author of, *Treating and Beating Fibromyalgia and Chronic Fatigue Syndrome: A Patient's Self-Help Manual*, as well as

*Treating and Beating Fibromyalgia and Chronic Fatigue Syndrome, Heart Disease: What Your Doctor Won't Tell You, and Treating and Beating Anxiety and Depression with Orthomolecular Medicine.* I've been specializing in the treatment of fibromyalgia and chronic fatigue syndrome for the last 18+ years.
