

## Gain More Search Engine Traffic And Have More Pages Indexed With A Clean And Professional HTML Sitemap

**Point-And-Click Your Way To An HTML Sitemap Fast, And Keep It Automatically Up-To-Date Later As You Add More Pages**

HTML Sitemaps are quite possibly the **easiest** way to have all of your pages indexed by the search engines. That's because search engines such as Google "crawl" through the links on your site looking for pages to index.

With an HTML sitemap, you will have one page that contains a link to **all** of the other pages on your Web site, all in one easy location.

Search engines will love this...and your visitors will love it too!

They will have a place where they can go, quickly and easily, to find what they are looking for on your web site.
