The Dirty Truth About Drop Shipping

What is drop shipping? Does drop shipping ever work? Is there anything like drop shipping that works? Where can I find real drop ship sources? Are all drop shipping companies scammers? Where do eBay PowerSellers find their drop shippers? Who drop ships name brand electronics?

My name is Chris Bernard. I worked for 11 years in the wholesale & drop ship industries and was considered one of the leading industry experts. During that time I worked with many of the world's most prominent drop ship companies. However, in February 2007 I was abruptly blacklisted from the industry *just for speaking the truth!* The truth that would cut into the drop shipping gold-rush profits and would demand the industry reinvent itself...

The Truth:

THAT DROP SHIPPING & THE INTERNET ARE NOT A GOOD MIX

★ I will teach you the right way to find products to sell online...
And it's not what you think -- not even close!!

To really understand the problem with drop shipping, you need to understand its origin.

Before the internet, companies that had products to sell but didn't have retail (brick-and-mortar) stores would sell their products through catalogs and door-to-door sales. So, they needed a sales force to go out and actively find buyers. These types of sales teams are often referred to as "feet-on-the-street" - literally people to walk around and sell products.
