What if You Could Buy Stocks Before They Go Up? [The Proof is in The Picks.](#)

Daily Stock Picks - Daily Gains - Guaranteed is our philosophy and promise to you. We started Catalyst Stocks after using dozens of services ourselves that just didn't make the grade.

Catalyst Stocks is a stock picking service geared toward day traders and short term investors. Through proprietary methods, we pick stocks that are about to make explosive moves. We are the only stock pick service that provides our members with a dynamic stock pick list- new opportunities are added throughout the day while picks that no longer meet our criteria are removed from the list.
