If you've been researching your own British Isles family history, like I have for a number of years, then you too have probably hit some brick walls.

You, like me, probably concentrated on all the easy connections in your family tree leaving all the frustrating ones to one side.

In my own research I continuously came up against all sorts of ancestor brick walls; but I didn't know how to get past them, in the early days. I missed out on a lot of leads that I could have found and followed sooner.

Eventually I realised that I needed to find out just how to get past these barriers. So I set out to learn more about the subject of family history.

I've now set it all down in a guide that you can follow in your own time and at your own pace.
