

## 2014-10-11 What odds would you accept? One in five?

Posted on 2014-10-11 by Dr Lance

So that's the question. Are those good odds?

My wife buys a lottery ticket every week. Her odds of winning are 1 in 3.8 million. Pretty slim odds but she still buys her ticket. Hey, somebody's got to win sometime and if you're not in it'll never be you.

So, 1:5 odds are pretty good. I'd be quite happy to place a bet with those odds. But, what if you were given those odds of dying from a particular cause or event. I don't know about you but I'd be extremely unhappy about those odds. With the current Ebola outbreak in western Africa, the odds of death from Ebola, once contracted, is estimated at an average of 50% or 1 in 2 with a range of 25% (1 in 4) to 90% (9 out of 10). Pretty miserable odds, if you ask me. Much better by far not to contract the
