

2015 Internship

Landscape architecture internships across the Country

Whether it's an urban park, a commercial center, or a residential neighborhood, we bring together the places that make communities feel like home. This is the place where great ideas and rewarding careers happen. Our multi-disciplinary team specializes in master planning; park and recreation design; multiuse pathways; athletic facilities; healthcare design; campus planning; transit oriented development; and landscape assessment and rehabilitation. We connect the people, places, and resources that take a project from concept to reality.

Design with community in mind

1 Apply online

To apply, please submit your resume by going to stantec.com/careers and clicking on the link for "Openings in the United States." From there, search our available locations for openings.

Full applications must be received by **March 2, 2015**.

Once your resume has been reviewed, we will request that you submit the information required in **step two**.

2 Submit your info

Indicate your background, your interests and goals in the field of landscape architecture, and any other relevant information you believe will help us understand your fit within the internship program.

Cover letter

Two letters of recommendation

Three work samples

3 We'll get back to you

We will review applications based upon creativity, critical thinking, and design communication skills.

All applicants will be notified by **March 31, 2015**. We look forward to hearing from you.

Interns will be encouraged to develop their design skills while assisting our team with various tasks including client presentations, design development, construction documentation and construction observation.
