IMPORTANT

Use ONLY the Naturally yarn specified. (We cannot accept

responsibility for an imperfect garment if any other brand is used.) Follow our instructions exactly.

We advise every knitter to check their tension carefully before commencing the garment.

All measurements in this design are based on the stated tension therefore it is essential that the correct tension be obtained and maintained throughout the garment to achieve success. We recommend the needle size we have used to obtain the tension BUT as each knitter knits differently it may be

necessary for some knitters to change their needle size accordingly.

CHECK YOUR TENSION CAREFULLY

If there are too many stitches to the inch then your tension is tight and you will need to change your needle to a larger size. If there are too few stitches to the inch then your tension is loose and you will need to change your needle to a smaller size.
